Disclosures

- Consultant-Michigan Hospital Association Keystone Center
- Subject matter expert for AHA/HRET: CAUTI, CLABSI, HAPI, Sepsis, Safety culture
- Consultant and speaker bureau:
 - △ Stryker's Sage business
 - △ LaJolla Pharmaceutical
- Baxter Healthcare Advisory Board

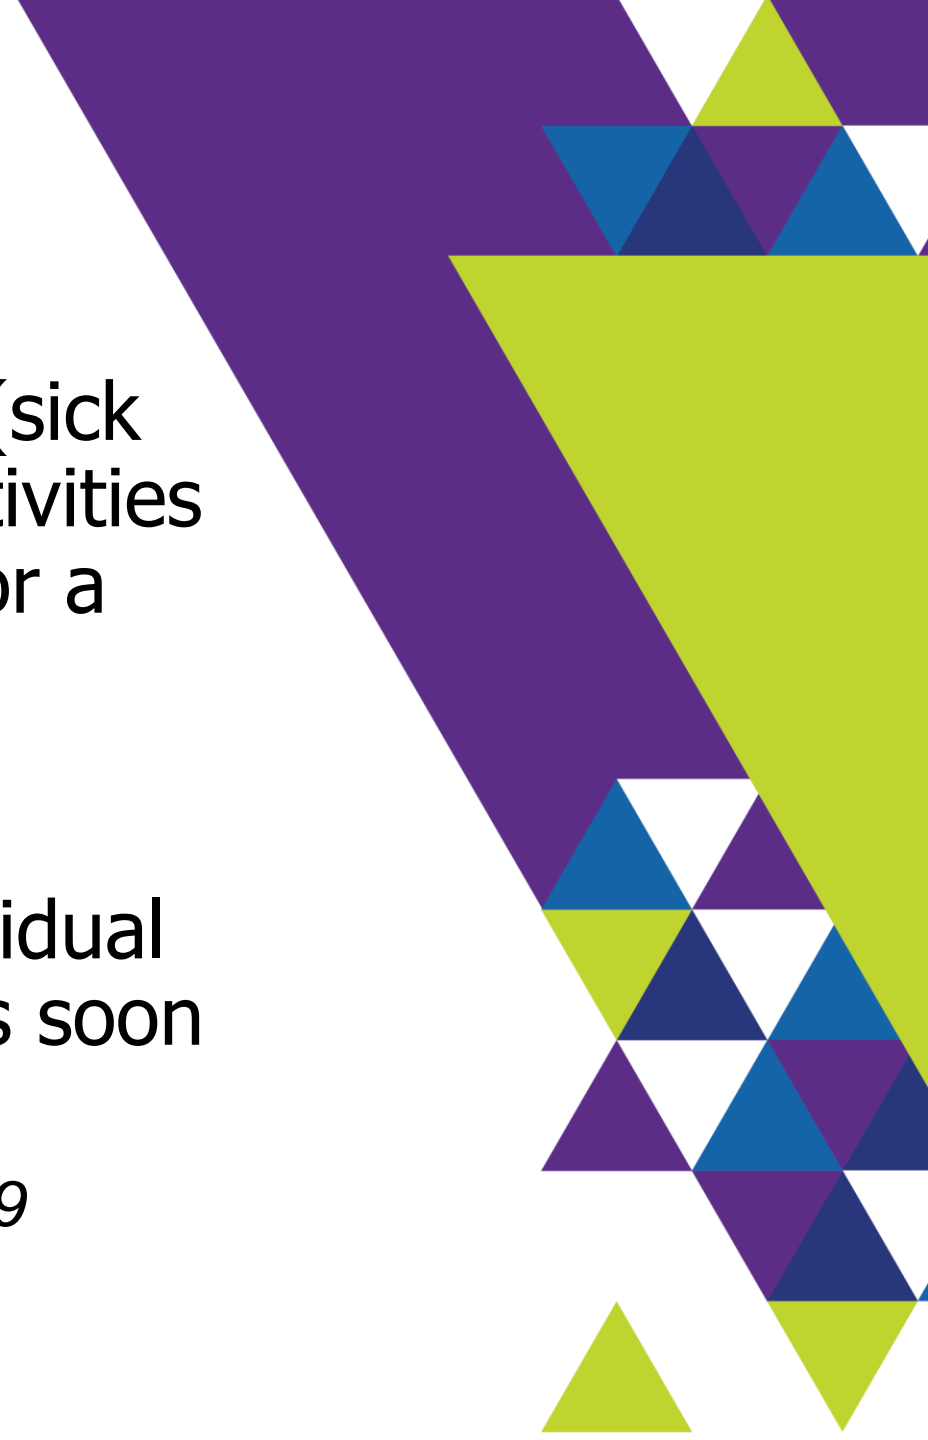

Objectives

- 🔗 Discuss the challenges to the nursing soul that affect job satisfaction and retention.
- 🔗 Identify the critical vitamins (behaviors, skills) necessary to thrive and excel in both personal and professional lives.
- 🔗 Outline a personal recipe for growth to identify behaviors that will help in making one significant change in the work environment within the next 6 months

Capturing the Essence of Nursing

“Nurses primarily assists the individual (sick or well) in the performance of those activities contributing to health, or its recovery (or a peaceful death) that he would perform unaided if he had the strength, will or knowledge. It is likewise the unique contribution of nursing to help the individual to be independent of such assistance as soon as possible.

Henderson 1959

Factors That Can Chip Away at Our Nursing Soul

- ▴ Unhealthy work environment
- ▴ Self Image
- ▴ Inappropriate communication
- ▴ Challenging collegial relationships
- ▴ Change fatigue
- ▴ Lack of understanding nursing true contribution to patients & families

Factors that Keep Us Nursing

- ▲ Positive practice environment
- ▲ Supportive manager
- ▲ Congenial staff
- ▲ Meaningful recognition
- ▲ How we feel about ourselves: If we feel good, greater confidence, we want to give back
- ▲ Ability to participate versus being told
- ▲ Being supported, listen to, consulted with

The Vitamins Necessary for Thriving and Growth within the Nursing Profession

Vitamin A

 Attitude

 Advocacy

Attitude

- 🔗 A confident person control their attitudes, instead of attitudes controlling them
- 🔗 Confidence is impossible without a positive attitude
- 🔗 Confident nurses take the same negativity, but they have learned to say that the garbage that goes in now needs to go out!!!!

Use a Personal Attitude Interrupt (PAI):
Intentional physical change on our part to stop the negativity from staying in our mind. It is a private signal from me, to me that I need to protect myself from incoming negativity

How to Be Present

- ▲ S: Stop for a few minutes
- ▲ T: Take a few deep breaths
- ▲ O: Observe where your mind is
- ▲ P: Perceive & move on

When We Are Present... We have Choices

POSITIVE ATTITUDE

It changes everything.

© 2000-2001 The McGraw-Hill Companies, Inc.

Sustaining a Positive Attitude Over the Length of Your Career

- ▶ The most important of all human freedoms is your attitude
- ▶ We choose how we respond to each moment
- ▶ I can complain or quit, but that gets me nothing
- ▶ I can focus on the positive..... what you focus on is what you feel

Physiology Can
Change Feelings

Sustaining a Positive Attitude Over the Length of Your Career

- Find someone to help you through
- Set realistic goals
- Be careful what you listen to, it becomes a feedback loop
- Attitude is contagious, make yours positive
- Find the calm within the crisis
- Develop other passions, outside interest, something to help you recharge
- Take breaks and meals, and don't work so much overtime

Advocacy

- ▣ **Advocacy** is the pursuit of influencing outcomes — including policy and resource allocation decisions within systems & institutions — that directly affect people's current lives. (Cohen, 2001)
- ▣ Therefore, advocacy can be seen as a deliberate process of speaking out on issues of concern in order to exert some influence on behalf of ideas or persons.

Advocacy Starts with Us

Reconnect With Our Professional Purpose

“It may seem a strange principle to enunciate as the very first requirement in a Hospital that it should do the sick no harm.”

Florence Nightingale

Advocacy = Safety

Florence Nightingale ...

- Surveillance & monitoring of patient conditions for early detection of problems
- Preventing complications

“I use the word nursing for want of a better. It has been limited to signify little more than the administration of medicines and the application of poultices. It ought to signify the proper use of fresh air, light, warmth, cleanliness, quiet, and the proper selection and administration of diet—all of these at the least expense of vital power to the patient”

Notes on Nursing (1860/1969 p. 8)

Patient Advocacy/Safety Related to Clinical Practice

- ▲ Nurses knowledge of the evidence-based care
- ▲ Ability to deliver the care to the right patient at the right time, every time it is needed
- ▲ The ability to communicate patient concerns in a concise, data driven manner and take appropriate action
- ▲ Understanding that I am the voice of the patient

 Behavior

 Balance

Behavior

- ▶ Your shadow
- ▶ Leader vs. follower
- ▶ Influence of peers on self and unit culture

dare to be different

What Shadow Do You Want to Cast?

- 🔍 Looking at the unit cultures you can often see the nurse's reflection.
- 🔍 The reflection we see can sometimes maybe difficult for us to handle.
- 🔍 If not careful, we respond by trying to defend or to rationalize away why what we see in others is not of our own making.
- 🔍 In this way, we may fail to take responsibility for what has resulted from our actions.
- 🔍 Without taking responsibility the first steps required to change the situation becomes impossible....!

“If your actions inspire others to dream more, learn more, do more, and become more, you are a Leader”

John Quincy Adams

*“Setting an Example is Not
the Main Means of
Influencing Others....It is
the Only Means”*

Albert Einstein

The background of the slide is a dense, overlapping pattern of various coins from different countries, including the United States, Canada, and Germany. The coins are in various colors (silver, gold, red) and denominations. A large orange rectangle is positioned at the top center, containing the title.

Peer Pressure

Time is the coin of your life. It is the only coin you have,
and only you can determine how it will be spent.

Be careful lest you let others spend it for you.

Carl Sandburg

What are your actions inspiring others to become?
What are your actions inspiring others to do?
What are your actions inspiring others to learn?

- ▲ Be the best person/nurse you can be
 - ▲ Utilize your creativity to enhance the art & science of nursing
 - ▲ Stop negativity when it comes your way
 - ▲ Demonstrate respectful communication with all disciplines
 - ▲ Participate on unit committees that shape your practice
 - ▲ Join a professional organization and participate if you can
 - ▲ Demonstrate evidence of continued learning
 - ▲ Demonstrate as best as possible life balance

Mental and Emotional Steadiness

Perfectionism

- Are you a perfectionist?
 - △ Protective mechanism
 - △ Defense mechanism
- Can be a form of psychological torture
 - △ More stress
 - △ More anxiety
 - △ More depression
 - △ It can immobilize you..what is it costing you
- Put it in its place
 - △ Don't believe everything you think
 - △ Challenge your thinking
 - △ Squash your inner critic

For everything you have missed, you have gained something else;
And for everything you gain, you lose something else.
It is about your outlook towards life. You can either regret or rejoice.

Knowing yourself helps with understanding factors that affect your life balance and happiness as well as finding your purpose in life

Strategies for Helping with Life Balance

Manage time or it will manage you

- △ Set times to respond to e-mails
- △ Turn off the phone.... Take time for yourself
- △ It is a personal thing, and it must work for you

Manage the environment by examining your habits and attitudes

- △ 51% felt work was a means to an end
- △ 24% found it a source of personal fulfillment
- △ Find enjoyable work that may not pay the bills or unhappy work that pays the bills
- △ Start to discover.. decide what to love...
- △ Habits are comfortable...even habitual unhappy work

Strategies for Helping with Life Balance

- 🌀 Mindfulness-paying attention in a particular way: on purpose, present in the moment and non-judgmentally
- 🌀 Achieved by regulating one's attention-focusing attention on one's thoughts and emotions
- 🌀 Greater frequency of practice likely to yield greater benefits
- 🌀 Benefits:
 - △ Improve mental focus and reduce mind wandering
 - △ Discourage black-and-white thinking
 - △ Assist in staying organized, managing time and setting priorities
 - △ Lifts us from constant low-level panic and guilt
 - △ Improves mood and emotional stability
 - △ Build self-monitoring capacity
 - △ Reduce burnout

We don't stop playing
because we grow old....
we grow old because we
stop playing.....
So live life!!"

OSHA: Definition of Workplace Violence

“Any physical assault, threatening behavior or verbal abuse occurring in the workplace”

Study of 8780 staff from 210 hospitals found that 46% of nurses experience 1 or more types of violence (emotional abuse, threats, physical assault, verbal sexual harassment & sexual assault in the past 5 shifts they worked

Almost 70% of abuse towards nurses is not reported

“Our lives begin to end the
day we become silent about
things that matter”

Martin Luther King Jr.

A good word is an easy
obligation; but not to speak
ill requires only our silence;
which costs us nothing.

John Tillotson

Speaking Up: Does a Plan Education Program Improve Advocacy

- ▲ Quasi-experimental design
- ▲ Intervention design to increase speaking up behaviors among nurses in situations where patient safety is in jeopardy
- ▲ 2 hospitals, same health system
- ▲ 51 RN's control group, 53 in intervention group
- ▲ Intervention; remove any sanctions, viewed video from CNO & CMO expressing commitment to back speaking up, discussion of organization obstacles, then individual obstacles, generate a personal action plan, planned peer support
- ▲ Results:
 - △ Significant increase in speaking up behaviors vs. control ($p < .0001$)

Courage

“Courage is what it takes to stand up and speak. Courage is also what it takes to sit down and listen”

Winston Churchill

What to Do Individually?

- ⚙️ Prevent from occurring through training on effective communication
- ⚙️ Deal in real time to prevent staff or patient harm
- ⚙️ Initiate post event reviews, action and follow-up
- ⚙️ Make it as transparent as possible
- ⚙️ Zero-tolerance policy and procedure
- ⚙️ Intervention strategy: code white

Communication Training

Communication Strategies

Tools to help structure communication

- △ SBAR for communication with Doctors: **S**ituation, **B**ackground, **A**ssessment and **R**ecommendation
- △ CUS Words: I am **C**oncerned, I am **U**ncomfortable, This is not **S**afe

Use CUS words when assertion of your communication fails...things go wrong...concern expressed but mutual decision not reached or proposed action doesn't happen in time frame agreed upon

Healthy Work Culture Standards

- 🔗 Skilled communication
- 🔗 True collaboration
- 🔗 Effective shared decision making
- 🔗 Appropriate staffing
- 🔗 Meaningful recognition
- 🔗 Authentic leadership

A healthy culture begins with each person & is enhanced by self work, healthy relationships & system supports

Change/Flexibility

- Change is constant, and it's impacting everyone. While you may not be able to change the circumstances around you, what you can change is yourself/your reaction and sometimes that changes everything.
- To manage change.....you need to develop new and improved attitudes and habits. When those new attitudes and habits meet the skills and knowledge you already possess, anything is possible.

The Front Line

We as tattered nurses stand on the front line, taking care of others dealing with the body and mind. Attempting to heal patient's wounds and help them go on with life..lending an ear when in need, listening to their pain & strife. Teaching some to deal with illness, telling them what the future holds...good, bad, indifferent we nurses help patients be bold. We're always on the front line dealing with a never-ending fight....

The Front Line (cont'd)

health, healing and wellness...sometimes we nurses need to take flight. For we need time to heal emotionally within ourselves...outlets to cope and learn we can't always put our feelings on the shelf. Somewhere there must be a middle ground where we can all go and rest, and soon we'll return to the front line whereas nurses we can be our best.
